

Betty, thank you for attending the TCAAP meeting on June 22nd. I was unable to attend, but wanted to let you know that I have been following this land use issue for many years. I fully support the conversion of this land to public park usage whether it be by County, State, Fed. or a combination of all dollars. This is a rare gem left untouched in the metro. Thank you, let me know if I may be of assistance in this matter.
